PROFIT ALERT

This announcement is made by CIG Yangtze Ports PLC (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to the Inside Information Provisions (as defined in the Rules Governing the Listing of Securities on the Growth Enterprise Market of the Stock Exchange (the “**GEM Listing Rules**”)) under Part XIVA of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) and Rule 17.10 of the GEM Listing Rules.

The board of directors (the “**Board**”) of the Company wishes to inform the shareholders of the Company (the “**Shareholders**”) and potential investors that, based on the information currently available, the Group is expected to record a net profit attributable to the Shareholders in the range between HK\$12.5 million to HK\$13.5 million for the nine months ended 30 September 2015 as compared to the net profit attributable to the Shareholders of HK\$9.3 million for the corresponding period in 2014, representing an increase of approximately 34.5% - 45.3%. The improvement in the results of the Group for the nine months ended 30 September 2015 was mainly attributable to the increase in the Group’s turnover of the terminal and related business segment as a result of (i) higher portion of gateway cargoes throughput; and (ii) certain uplift adjustment on tariff during the nine months ended 30 September 2015.

Despite the increase in net profit attributable to the Shareholders expected to be recorded above, the Board wishes to further inform the Shareholders and potential investors that, the profit attributable to the Shareholders for the three months ended 30 September 2015 will be decreased by approximately 6% as compared to the corresponding period of 2014. The decrease was mainly due to the drop in both gateway cargo and trans-shipment cargo containers throughput by approximately 10,700 TEUs for the three months ended 30 September 2015 as compared to the corresponding period of 2014, as a result of (i) the overall economic downturn in the People’s Republic of China; and (ii) the reduction of tariff by the Group’s competitors which in turn has increased its market share during the period under review; and (iii) the decrease in the level of container handling, storage & other services income resultant from the drop in container throughput. To mitigate this, management will continue to step up its effort in developing new businesses through the introduction of new customers while preserving existing customer base through quality services rendered.
